

Telephone

TSAChoice has been installing telephone systems for Asheville and Western North Carolina businesses since 1982. We are very proud of the fact that we are the largest provider in the area with thousands of long-term customers.

Our company offers solutions to organizations of all sizes from small stand alone key systems to complex customer interaction centers that include VOIP solutions. We represent a diverse line of systems from industry leaders like NEC , Mitel, and Shoretel . Our wide variety of products gives us the ability to tackle applications of all sizes at prices that will fit almost any budget.

TSAChoice offers its customers a complete turnkey solution. Our staff will listen to your company's needs and goals, suggest an appropriate solution, completely install the equipment and thoroughly train users on the use of the new system. We also make the arrangements for your local telephone service, Internet access, and long distance so that every detail is in place.

Our 27 member technical service staff offers 24/7 emergency service and is supported by over a half-million dollars worth of spare parts. We offer a variety of service options , from totally inclusive plans that cover all parts and labor to standard time and materials billing.

We are TSAChoice, the One Call Provider; the only choice that your business needs to make.
