

Computer Repair

TSAChoice has been performing Computer Repair & Service on computer systems since 1994, and has the people, processes and resources to ensure your complete repair satisfaction. Our in-house staff boasts 40 years of combined experience, and employs component level electronics repair technicians and certified computer repair technicians to repair your computers, printers, monitors and other electronics. Our affordable carry-in repair depot service is available to both businesses and consumers, and operates from 8 am to 5 pm, Monday thru Friday. We have served our customers well, and have earned their repetitive business. They have also rewarded us by referring our expertise to others in need of professional, quality, and honest service.

In-House Computer Repair

Our in-house computer repair offers a full range of computer services, with certified technicians. We provide the best and most complete services in the area, and carry a large assortment of upgrade parts; including hard drives, memory, video and sound cards, keyboards, mice and monitors. Components not stocked can be special ordered and received, usually within a couple of days. In most cases in-house repair is a more cost effective and timely way to get your failing computer systems back up and running. Some of our services include,

- Laptop Diagnostics & Repair

- Desktop Diagnostics & Repair

- Server Diagnostics & Repair

- Data Recovery Services

- Spyware & Adware Removal

- Virus & Worm Removal

- De-Fragmentation of Your Hard Drive for Quicker access

- Emergency Repair Services

- Cleaning Out Dust and Grime Buildup

- Testing of Computer Hardware Devices

- Computer Hardware upgrades

- Updating Windows with the latest Security patches

- Updating Your Anti-Virus, Anti-Spyware, Firewall and other security programs

In-House Printer Repair

Eventually, like anything in life, printers do require maintenance and upkeep such as cleanings and repairs. Our in-house repair facility is staffed with experienced technicians enabling us to function as your company's service center. Our technicians provide high-quality expedited repairs for your laser printer, inkjet printer, dot matrix printer, label printer; POS receipt printer and even Plotters minimizing unproductive downtime. We can take care of your problems professionally and reasonably, and when available loan you a printer so you can keep your business running while your repair is being performed.

In-House Monitor Repair

Failure of just one tiny component can render a monitor useless. Until the tube or main transformer fails, repair is a logical, environmentally responsible, and cost-effective choice. We have the expertise to diagnose and repair your failing CRT monitor, LCD monitor, Terminal, Industrial Monitor, or Rack Mounted Units. Component level electronics repair makes TSAChoice one of the most comprehensive in-house Computer equipment repair facilities in Western North Carolina.

In-House UPS Repair

Batteries in UPS Units last approximately 4 to 6 years. After this time the UPS will have substantially reduced run time or not be able to keep your equipment up in the event of a power failure. Replacing worn out batteries can often times be a cost-effective alternative to replacing the UPS. We can replace old batteries, test your UPS for proper operation and recycle the old batteries for you.
