
Telephone, Computer, IT Services, Structured Cabling, Carrier Services, & Audio/Visual Technology

With a staff of over 50 communication professionals, TSAChoice is the largest telephone and data systems integrator in Asheville, NC and Western North Carolina. TSAChoice has been serving business customers in and around Asheville since 1982, and is one of only a few companies in the state capable of delivering turnkey telephone, computer, and network solutions-all from a single source.

Products and services

Voice - Sales, installation, and repair of traditional and VoIP telephone systems from the industry's top manufacturers. -- NEC , Mitel , and ShoreTel. We offer communication solutions for organizations of any size and industry.

IT Services - Comprehensive solutions to meet the Information Technology needs of any organization. We offer computer repair, IT Consultations, LAN & WAN services, Remote Monitoring, Maintenance and Management services, onsite and bench service, and more.

Structured Data Cabling - Category 5e and 6 and optical fiber optic solutions designed by our own licensed North Carolina Low-Voltage Electrical Contractors and Registered Communications Distribution Designer.

ACCESS - Our exciting new home technologies division. Designs and installs home automation and entertainment systems. Access also does wonders with commercial multimedia technologies and conference rooms.

Why TSAChoice?

It is TSAChoice's commitment to service excellence that keeps its customers coming back year after year. The company

has received several national awards that consistently rank it as one of the top companies in the country in terms of customer loyalty and satisfaction. That is why when its employees are asked what distinguishes their company from their competitors, they proudly proclaim Our Service Makes the Difference.
