

Commercial Audio/Video

Are you interested in installing a video projector or other large HD display in your conference room? Would you like to be able to dim the lights, cue a presentation, set the thermostat, and lower the window shades at the touch of a button? Would you like to make it easy for visitors to plug their laptops or PDAs into your overhead projector for presentations, or allow them access to your network through a secure wireless access point? Are you interested in distributed audio, paging or camera systems for the office? TSAChoice can do all of this plus much more...

Business customers have been the heart and soul of TSAChoice for 25 years and counting. Executive Board Rooms, Conference/Training Rooms, and Video Conferencing solutions are the latest in a long line of business services that we can provide our customers.

Office Enhancement with a control system

TSAChoice utilizes a variety of control and automation options in their executive boardroom projects, including Crestron, Extron, and Control 4. These products gives you simple, centralized control over your lights, music, video projector, thermostats, and even remote cameras. Wireless IP-based products integrate your existing technology into one complete system, providing a new level of control for your conference room.
