

## Sales and Products

### COMPUTER DESKTOPS AND SERVERS

TSAChoice offers a line of powerful and cost-effective desktop computers and servers that are custom-built to your specific needs. TSAChoice is also an Lenovo Business Partner, providing the company's well-known desktops, notebooks, and servers. We offer full service warranties on everything that we sell, with optional extended warranty coverage and on-site service contracts available. Our repair center accepts drop-off equipment or we can pick up and deliver. We also stock a full array of computer supplies, software and accessories.

### LAN / WAN SERVICES

In addition to hardware, TSAChoice's data capabilities include the design, installation and on-site support for Local Area Networks that utilize the Microsoft operating systems. We also provide wide area network support, Cisco wireless LANs, voice over frame relay and IP networks, virtual private networks and other TCP/IP applications. TSAChoice can also provide Internet connectivity, email, spam filtering, and firewall protection for your network. With Microsoft Certified Systems Engineers (MCSE), Cisco Certified Network Professionals (CCNP), and BICSI Registered Communications Distribution Designers (RCDD) on staff, TSAChoice is uniquely qualified to design, install, and maintain your network, whether it's three computers in a peer-to-peer configuration or a 500-node enterprise network.
